

## **SOCIAL WORK PROGRAM BSW ASSESSMENT 2013-14**

### **Social Work Program Assessment Plan**

The Social Work Program is accredited by the Council on Social Work Education (CSWE) and adheres to its accreditation standards that require each program to have an assessment plan and procedures through which to evaluate program outcomes. Our Social Work program assessment plan is tied to the 2008 EP Competencies. Each individual course contains student learning objectives and outcomes that link back to the EP Competencies. The Social Work program uses all assessment information to affirm or improve our course content in relation to our learning objectives.

### **Social Work Mission**

The social work program's guiding philosophy is based on two broad traditions: generalist social work practice and the land-grant university heritage. The program mission is to prepare social workers for beginning practice in a diverse society and to equip students with the knowledge and skills essential to the general tasks of promoting social welfare in institutions such as education, health, employment, housing and criminal justice. The program provides grounding in the fundamental generalist skills, knowledge, and values of social work, such as critical thinking, clarification of personal values, awareness of diversity, professional use of self, and communication and interpersonal relationship skills.

### **Social Work Program Goals**

The two fundamental goals that guide the Social Work Program are:

1. To prepare students for employment as generalist social workers through education in a professional foundation curriculum and selected liberal arts education coursework.
2. To prepare students for advanced professional education.

### **Advanced Placement Test (APT) and Generalist Practice Test (GPT)**

The Social Work Program Advanced Placement Test (APT) and Generalist Practice Test (GPT) results are each used as part of the evaluation process to determine student readiness to move forward in the Social Work program. The APT is one of the indicators to assess if students are ready to move into the Advanced Standing junior year practice classes. The APT tests student knowledge of the content in the three introductory classes (SW 1010, 2100, 2400). The GPT is one of the indicators to assess if junior social work majors are ready to move into their senior year practicum placements. The GPT tests student knowledge of the content in the four junior year practice classes (SW 3050, 4100, 4150, 4160). Students need to score 70% or better on either exam to advance to the next level. The exam results are analyzed by subject area (e.g. material pertaining to Introduction to Social Work) to evaluate teaching effectiveness of those content areas (see Table 1 below) and also how well we are

meeting program teaching objectives. The APT/GPT results are also linked to the CSWE 2008 EP Competencies (see Table 2 below). Faculty discuss all assessment results at the first Social Work faculty meeting of each academic year.

TABLE 1. SOCIAL WORK ASSESSMENT EXAM RESULTS 2013 ->		
APT MEAN SCORES BY SUBJECT AREA	2013	2014
1010 Intro	86.3	75.1
2100 HBSE	87.1	76.9
2400 Diverse Populations	92.8	92.6
GPT MEAN SCORES BY SUBJECT AREA		
3050 Practice I (individuals)	81.0	82.8
4150 Practice II (groups)	75.8	73.6
4160 Practice III (communities)	77.0	95.0
4100 Research Methods	67.4	75.4

### CSWE 2008 EP Competencies

Each social work class has stated learning objectives that are linked to these competencies. While each competency is not evaluated in every class, all the competencies are evaluated in the overall curriculum.
