### **SCHOLARLY ACTIVITIES\***

---

*\* I have a demonstrated record of scholarly productivity commensurate with my grant funded, community-based position at the Center for Persons with Disabilities. Further, in anticipation of applying for this position, I have pursued opportunities to engage in more traditional forms of scholarly activity (e.g. preparing and submitting manuscripts to peer reviewed journals and developing and submitting additional research proposals to the IRB). These efforts fall outside of the required responsibilities I have maintained in my current position.*
